***Responsive Test Note:**

Grand River Construction solicitation response was missing one page the W-9 form. This form is not required until after award. This is a minor informality that is permissible.

SKYE Contracting solicitation response is missing the W-9 form, which on its own would be a minor informality and permissible. However the Major Equipment Form was submitted blank. The Major Equipment Form provided the breakdown on the pricing for the major pricing items. Pricing information cannot be altered or modified after the opening of a solicitation. This is a major informality and determined non-responsive.
