Site Drawing

- **Provide an accurate site drawing with this application (see example below).** The drawing must show approximate distances. Include the following (and approximate distances):

- | | | |
|--|--|---|
| <input type="checkbox"/> North Arrow | <input type="checkbox"/> Surface Water | <input type="checkbox"/> Replacement Septic System Area |
| <input type="checkbox"/> Road | <input type="checkbox"/> Slopes or Drop-offs | <input type="checkbox"/> Well(s) ALL-irrigation, geothermal, drinking water |
| <input type="checkbox"/> House/Building(s) | <input type="checkbox"/> Known Contamination | <input type="checkbox"/> City Water Line(s) (on property) |
| <input type="checkbox"/> Driveway | <input type="checkbox"/> Fuel Oil Tank(s) | <input type="checkbox"/> City Sewer Line(s) (on property) |
| <input type="checkbox"/> Property Lines | <input type="checkbox"/> Septic System | <input type="checkbox"/> Adjacent Property Addresses |

- **Stake proposed well and/or sewage treatment system location.** Write "septic" or "well" on the stake.
- **Additional information may be required once this office has conducted the initial site evaluation.** Additional information may include, but are not limited to: backhoe cuts, critical dune and wetland evaluations.

TYPICAL ISOLATION DISTANCES

Septic Tank Isolation

- 10' from basement wall
- 10' from lot line
- 10' from bank or drop-off
- 50' from private water well
- 75' from semipublic water well

Absorption System Isolations

- 10' from basement wall
- 5' from lot line
- 15' from bank or drop-off
- 50' from private water well
- 75' from semipublic water well

Site Drawing for Address of Application

Sewage Treatment System Elevation Requirements

The Sewage Treatment System Permit contains crucial minimum elevation data. This data indicates the required elevations to the bottom of the drainage portion of the sewage treatment system. It is imperative you share this information with your plumbing and septic system contractors prior to any construction.

The minimum elevation to the bottom of the drainage system, the soil boring, and grade elevation location information can be found on the sewage treatment system permit, application, and corresponding documents.

If you have any questions regarding the grade elevation, its location or you require verification or relocation of the grade elevation, contact this office and speak with the area sanitarian. We are available to meet with you at the site to re-evaluate and clarify the grade elevation prior to installation of the sewage treatment system.

After construction it may not be possible to obtain the required drainage system elevation without the installation of a sewage lift pump and pump chamber.

Failure to install the system according to the permit conditions will void the permit.

If you have questions regarding this document, or wish to speak with the area sanitarian, please call: 231-724-6208.

Septic Applicant Signature _____ Date _____

****Sewage Treatment System Operation/Maintenance Evaluation (complete this if sewage treatment system is not working properly)**

To be completed by the owner/occupant. This information is collected in order to better understand the household's use and determine appropriate sizing for a new system.

Approximate year the house was built?	
Estimate of how many years the existing sewage disposal system has been in use?	
How long has the current family lived here?	Number of people living in the home?
Approximately how often is the septic tank pumped (years)?	
How many loads of laundry are run each week?	
Are all the laundry loads usually done on the same day? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Is there a separate system for the laundry or kitchen sink? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Is there a garbage disposal? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Is there a lower level bathroom with a pump system? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Is there a whirlpool tub in the home? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Does the water softener discharge into the septic system? <input type="checkbox"/> Yes <input type="checkbox"/> No	
Have any changes been made to the septic system since the original system was installed? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, what?	
Why are you fixing or replacing the sewage treatment system? (check all that apply)	
<input type="checkbox"/> Renovation/new construction/addition	<input type="checkbox"/> System doesn't meet code
<input type="checkbox"/> Township or Public Health require it	<input type="checkbox"/> Plumbing is slow to drain
<input type="checkbox"/> Sewage is backing up into the home	<input type="checkbox"/> Sewage is coming out of the ground
<input type="checkbox"/> Recommendation from a pumper, installer, or plumber	
If you have any further comments or information about the system, please provide it here:
